Expert in:

- Health Insurance
- Health Insurance IT
- Operating in a global environment
- Leveraging technology to reduce healthcare expenses

Mandeep Maini is an accomplished Health Insurance / IT Consultant who divides her time between the US and India; Mandeep advises US and Indian Health Insurance companies and vendors on Health Insurance expansion and reform, and on new product development, technology strategy, and eHealth Delivery; She is a frequent speaker at International Health Insurance conferences, and recently published an article titled “The Art of Insuring: What the Indian Health Insurance Industry can learn from the US Healthcare Debate” in the Indian Express.

Mandeep Maini worked for many years at Blue Cross Blue Shield of Massachusetts (BCBSMA), where she launched low-cost, affordable health insurance products, initiated a first-of-its-kind partnership with Google Health, and leveraged technology to reduce healthcare expenses by \$160M. In a previous role, also at BCBSMA, Mandeep led the Program and Vendor Management Office, overseeing \$250M outsourcing contracts, and a \$125M project portfolio.

In addition to the US and India, Mandeep has worked in Munich, Germany, where she led Advanced Development Projects in collaboration with German, French, Italian, Irish and British companies and institutions. She speaks intermediate-level German.

Mandeep obtained her Master’s in Artificial Intelligence from Harvard University, and her MBA from Northeastern University, graduating with honors.
